- 14.03.19
- 11.04.19
- 09.05.19

Ramadhan IS UPON US!

Fasting and Your Health

Prior to Ramadan, a Muslim should always consult with a doctor about the safety of fasting in individual circumstances. Some health conditions may be improved during fasting, while others may possibly deteriorate. If you decide that fasting could possibly be harmful in your situation, you have two options:

There is no need to feel guilty about taking care of your health needs during Ramadan. These exemptions exist in the Qur'an for a reason, as Allah knows best what issues we may face. Even if one is not fasting, one can feel part of the Ramadan experience through other areas of worship -- such as offering additional prayers, inviting friends and family for evening meals, reading the Qur'an, or donating to charity.

The Electronic Prescription Service is now Live!!

The Electronic Prescription Service allows your prescription to be sent electronically to a pharmacy of your choice.

To sign up, you need to speak to your preferred pharmacy and complete a form to confirm that they can receive your prescription directly.

Once you have signed up, your chosen pharmacy will receive your prescription electronically and you will not have to pick your prescription from us.

If you have already nominated a pharmacy, your prescription will be sent to them electronically **unless you tell us otherwise**. If you need to obtain a paper prescription for any reason, just let us know at the time of ordering.

The service is optional and you can continue to collect paper prescriptions as you do now if you prefer.

For more information, please speak to your pharmacist.

Are you a military veteran?

If you are a military veteran please inform the surgery.

You can call the surgery and inform via phone. Alternatively you can come to the desk and inform the receptionist.
